KAITLIN BERRYMAN

Technical Project Manager, Implementation Manager, Solutions Engineer, Delivery & Deployments Lead
(757) 601-6266 | kaitlinberryman@pm.me | k-berryman.com | linkedin.com/in/kaitlinberryman | github.com/k-berryman

PROFESSIONAL SUMMARY

From leading $10M+ in government contracts at A-NPDC to founding the Deployments Team at Laminar (Edison Award-winning industrial IoT startup), Kaitlin brings engineering-grade precision to technical account management—combining full-stack GIS engineering from Gaia AI (spatial data & AI-driven forestry) with deep government compliance expertise.

PROFESSIONAL EXPERIENCE

Community Development Coordinator | Accomack-Northampton Planning District Commission | 2026

- **Housing Development:** Managing DHCD CDBG Planning & Implementation grants for Horntown ($1.4M awarded), Atlantic ($1.68M application in-progress), and Northampton Scattered Site ($75k application in-progress leading to $1.68M). Spearheading Virginia Housing Planning grants: capacity building, innovation, and CIG. Applied to $4M in DEQ, EPA, IIJA, WIP, SCRC, and NFWF INSR funds. Scoping DHCD ASNH VHTF & IRF.
- **Coastal Resiliency:** Solely led $2.75 Million FEMA VDEM application for home elevations. Improving application intake process for Spring FMA and HMGP FEMA VDEM applications, replicating the multi-million application.

Sole Regional Field Organizer | Democratic Party of Virginia Coordinated Campaign | 2025

- **Regional Leadership:** Sole technical and operational lead for the Eastern Shore region during a successful statewide clean-sweep victory. Managed data hygiene and voter file synchronization for a 70-mile rural turf.
- **Field Support SME:** Led onboarding teaching volunteers how to use MiniVAN, Mobilize, and Scale-to-Win mobile and web apps. Ensured data integrity across state and local databases.

Lead Applications Engineer (Deployments Team Founder) | Laminar | 2024 - 2025

- **High-Stakes Technical Lead:** Trained and led a team of 5 Applications Engineers to deploy the 4th industrial revolution. Lead TPM for Fortune-100 clients—including Unilever, Coca-Cola, and AB InBev—managing complex technical requirements with rigorous precision. Responsible for the success of all global pilots.
- **Executive Stewardship:** Entrusted by the CEO & CTO to lead all deployments (~50 global factories) for three months as the primary leader during a high-stakes $12.5M Series A fundraising round. Ensured successful pilots.
- **Scalable Architecture:** Pioneered the company's "Deployment Playbook," architecting the scalable management framework by refining implementation processes from pilots and feedback. Automated PM with SlackBots.
- **Cross-Functional Glue:** Represented Laminar's engineering department to customers and the voice of the customer to the engineering teams. Translated complex technical data into meaningful growth stories.

Graphic Engineer | Greenfire | 2023 | **Content Creation:** Created marketing materials - GIMP, Inkscape, Canva.

Software Engineer (Lead Web & Mobile Developer) | Gaia AI (leading Climate Tech startup) | 2022 - 2023

- **Stakeholder Management:** Served as the interdisciplinary bridge between technical teams and executive leadership to ensure product roadmaps met broader engagement goals.
- **Technical Implementation:** Rapid prototyping & mobile-first deployment for a high-growth climate-tech leader.

Jr. Software Engineer (NASA Contractor x2) | Geisel Software | 2021 - 2022

- **Mission-Critical Logic:** Applied rigorous NASA-grade technical logic to mission-critical operational requirements, applying systems-level thinking to database structure.
- **Investigative Data Hygiene:** Maintained extreme data integrity protocols to ensure process accuracy.

Studio Manager | Color Me Mine Norfolk | 2020 - 2021

- **Team Leadership & Customer Relations:** Trained and led team of 5, created an engaged community of regular customers, doubled average weekly revenue, and managed e-commerce website and social media accounts.

Electrical Engineering Teaching Assistant | Rochester Institute of Technology | 2019
Engineering Technology Assistant | Rochester Institute of Technology | 2019
IT Intern | Tech Solutions Now | 2018 - 2019
Robotics Camp Lead Instructor | Robot Academy | 2014 - 2018
Technology Education Representative | Ohio State Fair Jr. Fair Board | 2016 - 2017

EDUCATION, CERTIFICATION & LEADERSHIP

- **User Experience (UX) Design** | Cornell University Certification | In-Progress
- **Full-Stack Software Engineering** | Springboard Bootcamp | 2022
- **Electrical Engineering (Robotics Option)** | Rochester Institute of Technology (RIT) | 2018 – 2020
- **R&D Director at RIT's Computer Science House** | Led 100+ students and $15k R&D project budget.
- **Robotics & STEM Fundraising (10+ Years)** | Spearheaded fundraising initiatives and community outreach via FIRST Robotics mentorship: FRC, FTC, and FLL.
